

ChariTrees 2026

Sponsorship Package

This Christmas, adopt a tree and make a difference in the lives of people with disabilities.

About ChariTrees

Organised by The Rice Company Ltd, ChariTrees is an annual fundraising initiative that transforms the Marina Bay Waterfront into a festive showcase of specially designed Christmas trees, each adopted by donors in support of meaningful causes.

This year, SPD is proud to be part of ChariTrees once again. Funds raised will empower persons with disabilities to live independently and lead meaningful lives, and will be eligible for matching under the Tote Board's Enhanced Fundraising Scheme.

About SPD

SPD is a local charity dedicated to helping people with disabilities or those who may develop disabling conditions to maximise their potential and integrate them into mainstream society.

Today, SPD delivers over 20 programmes and services spanning early intervention, day care, senior care, day rehabilitation, employment and educational support, assistive technology, as well as case management. Through these services, we serve individuals with physical, sensory and developmental needs, as well as autism, across different life stages.

Our Mission

SPD is committed to working in partnership with people with disabilities to develop their potential to the fullest so they can be self-reliant and independent.

Our Vision

To build an inclusive community where everyone is part of it, not apart from it.
